

**Unicad, Inc. Rate Schedule - 2016**

**Fire Alarm Design/Drafting** **\$55.00/Hr.**  
(These rates are firm until January 1<sup>st</sup>, 2017)

**Fire Alarm Design & Shop Drawings:**

**Estimated cost per sheet for pre-engineered shop drawing:** **\$225-\$425**  
(Depending on the complexity and number of devices)

**Estimated cost per sheet to provide fire alarm system design.  
Device location only. (Usually for bid purposes)** **\$125-\$325**  
(Depending on the complexity and number of devices)

**Estimated cost per sheet to provide fire alarm system design  
and all required shop drawing information.** **\$325-\$625**  
(Depending on the complexity and number of devices)

**Estimated cost per sheet for as-builts/record drawings and placards** **\$50-\$200**  
(Depending on the complexity and severity of the contractors mark-ups)

The prices listed above are contingent upon having electronic CAD files available for use by Unicad, Inc. If CAD files are not available and Unicad, Inc. is required to re-create building floor plans the price will increase by approx. \$100 - \$200.00 per sheet. This does not include trips to the job site, measurements or other verification or interface that is required. These situations will be billed on an individual basis.

It is the desire of Unicad, Inc. to provide you with a fair cost for drawings. When we make a mistake we offer to rectify for no additional cost. When there are revisions required that are out of the initial scope or due to changes on the project that are out of the control of Unicad, Inc., additional costs may be billed at our current hourly rate.

Unicad, Inc. requests that its invoices be paid 30 days from the invoice date. Failure to do so may result in a late fee and finance charges.

Sincerely,

Mark L. Elison
