

SUBMITTAL: COSMOPOLITAN STAINLESS STEEL FX FIRE-RATED EXTINGUISHER CABINETS

PAGE 1 OF 2

The Cosmopolitan Series in Stainless Steel Is a Modern, Clean Look for Recessed & Surface-Mounted Extinguisher Cabinets.

Door & Trim Construction: # 4 stainless steel. Flush cabinet doors with a 5/8" door stop are attached by a continuous hinge and equipped with zinc-plated handle and roller catch. All models have 1-3/4" wide trim on frame and 1-1/4" trim on doors with glazing.

Trim Style & Depth: Recessed 3/8" flat trim, Semi Recessed - 1-1/4", 1-1/2" Square Edge or 2-1/2", 3", 4", 4-1/2" Rolled Edge (4" has recessed ADAC pull).

Tub: The double tub is constructed of cold rolled steel with white powder-coat finish standard. Tub forms a flange to cover cut edges of wallboard material. Fire-resistant material is sandwiched between the layers of steel.

Fire-Rating: The recessed and semi-recessed Fire-FX™ cabinets are fabricated in accordance with the Warnock Hersey label for one and two hour combustible and non-combustible wall system building codes. The fire testing has met the requirement of the UBC standard 43-6 and ASTM-E814-83 for membrane and penetration firestops. Installation instructions must be strictly adhered to in order to obtain the fire rating. The installation of any fire-rated cabinet which lacks a cabinet door or a condition in which the door is left ajar, will void the fire rating.
