# HOMECONTROL *FLEX*

HomeControl Flex Installation: TG-1 Express with DSC 5020

The following information is to serve as a guide for installations of TG-1Express devices enabled for Interactive Services with the DSC 5020. The configuration shown in the diagram below is an example of how a proper installation could look. The output and zone could differ from the diagram, without changing the outcome of the installation.

Installation Diagram

Note: Although a resistor is not depicted here, one may be required by the Keyswitch zone in accordance to the Panel's specifications. For more information, please refer to the Panel's Installation and/or Programming Manuals.
